

An aerial, isometric view of a city grid. Buildings are represented as 3D rectangular blocks in various shades of blue and green. The streets are dark grey lines forming a grid. The perspective is from a high angle, looking down at the city.

# FOSS4GNL

Welkom in Delft

An aerial, top-down view of a city grid. The buildings are represented as 3D blocks in various shades of blue and green, set against a dark background. The streets are visible as dark lines between the building blocks.

\*figures in 5 slides from now

An aerial, isometric view of a dense urban environment. The buildings are represented as 3D rectangular blocks in various colors: light blue, teal, green, and purple. The streets are dark grey lines forming a grid. The perspective is from a high angle, looking down at the city. The word "Dank!" is superimposed in the center in a white, sans-serif font.

Dank!

# Rooms

An aerial view of a city, likely Amsterdam, with buildings represented as 3D blocks. The blocks are colored based on the language spoken in the rooms: red for Dutch, blue for English, and green for other languages. The city is densely packed with buildings, and the colors are distributed across the urban landscape.
